

OHCA Mother's Day Celebration Provider Guidance

1. Communicate your plan with residents and their sponsors/family members
 - With Mother's Day this weekend it is important that providers have a plan and communicate that plan with residents, families, and friends.
2. Communicate your plan with staff
 - Staff need to know what your facility plan entails and what their role is in the plan.
3. Consider what is allowed to be dropped off and what the process will be for drop off
 - Communicate what you will and will not accept.
 - Consider having specified drop off times.
 - Consider having staff in charge of drop off and sanitation/disinfectant of gifts/floral containers, etc.
 - Provide staff with communication tips for dealing with upset family members.
4. If you are doing special events communicate those with all parties
 - We have attached a list of ideas from OHCA members and other states
 - We have attached a potential activity that can be distributed
