COVID-19 Vaccination Provider Partners,

As attendance slows at COVID-19 mass vaccination clinics, it is important that we find other convenient ways for interested Ohioans to get vaccinated. That is why Ohio's COVID-19 Vaccine Program now allows enrolled vaccination providers to use vaccine to conduct closed on-site vaccination clinics at partnering businesses, labor unions, and community organizations for their employees, members, clients and other stakeholders.

We need more vaccination providers who are willing to partners with businesses and other community organizations to conduct these clinics. If you haven't already expressed a willingness to do so, we ask that you complete this brief survey at https://www.surveymonkey.com/r/JGN9BNY.

The Ohio Department of Health (ODH) has drafted "Guidance for Vaccine Providers Working with Ohio Employers/Organizations" available at https://odh.ohio.gov/static/covid19/vaccine-providers/provider-guidance-for-employers.pdf that provides additional information.

Providers willing to conduct such vaccination clinics are included in a list given to business and community groups and associations to share with their members, and it also is posted on the state's coronavirus website at https://coronavirus.ohio.gov/static/vaccine/business-provider-partners.pdf.

A "COVID-19 Vaccination Program for Businesses and Organizations" webpage has been created on the state's coronavirus website that contains a collection of resources to help vaccine providers and Ohio employers and community organizations build partnerships to offer convenient vaccinations to their employees, members, clients and other stakeholders. Resources include those listed above as well as a COVID-19 employee vaccination toolkit, vaccination clinic checklists, and printable flyers and posters. The webpage is available at (https://coronavirus.ohio.gov/wps/portal/gov/covid-19/covid-19-vaccination-program/businesses-and-organizations).

Thank you for all that you are already doing to vaccinate Ohioans and help end the COVID-19 pandemic.
