

SECOND ROUND

N95 - SNF COOPERATIVE DIRECT PURCHASING OPPORTUNITY

An FDA Emergency Use Authorization (see: <https://www.fda.gov/media/135763/download>), allows healthcare facilities to use approved NIOSH-Approved N95 Particulate Filtering Facepiece Respirators approved by the Centers for Disease Control and Prevention – Please see:

https://www.cdc.gov/niosh/npptl/topics/respirators/disp_part/N95list1sect3.html.

In furtherance of managing the supply of such approved respirator masks in the evolving regulatory environment, Fortbridge Realty, LLC, an affiliate of Legacy Health Services, has managed to secure a direct manufacturer supply from Makrite Industries for the Makrite 9500-N95 respirator mask (see image above). In the interest of obtaining the lowest price possible, Fortbridge is consolidating a large order from Ohio based SNF operators. Fortbridge has secured a continuous freight bond and is working with DSV Air & Sea, Inc., as a customs broker and forwarder of air freight originating in China.

This cooperative purchasing opportunity is designed to provide Ohio based SNFs with the ability to provide uniform and consistent high-quality respirators to their employees. Fortbridge has already placed three separate orders of masks at the price of **\$3.30 per mask**. In order to participate in this cooperative purchase, please complete the form below and send same to the attention of Eliav Sharvit, CEO of Legacy Health Services and President of Fortbridge Realty at esharvit@lhshealth.com – (cell phone number 440-823-0396) by no later than **Friday, December 4, 2020**. All orders need to be in increments of **480 masks** due to packaging. Once total orders are aggregated, Fortbridge will confirm pro rata shipping costs and shipping details.
