Subject: Vaccine Lot Management and Expiration - A message from the NCIRD

Enrolled Provider Partner,

We are pleased to share with you the following message is from the **National Center for Immunization and Respiratory Diseases (NCIRD)**.

CDC is committed to helping jurisdictions and sites effectively and efficiently manage inventory and minimize the number of doses that go unused, including tracking vaccine expiration dates, and using vaccine in a timely manner.

In order to minimize the number of unused expired doses and manage expired doses correctly, we encourage jurisdictions and providers to:

- Monitor expiration dates weekly, rotate stock as needed, and follow a “first in, first out” strategy to manage inventory.
- If nearing expiration, check posted manufacturer information for the most up to date expiration/extension information for vaccine lots.
- Based on the latest expiration information, REMOVE expired vaccine from the storage unit IMMEDIATELY. Do not give staff opportunity to administer expired vaccine.
 - If expired vaccine is inadvertently is administered, it is considered a vaccine administration error and requires remediation including a VAERS report, contacting the recipient to inform them of the error, and may or may not require revaccination based on the manufacturers’ guidance. Guidance on vaccine administration errors can be found in Appendix A of the [Interim Clinical Considerations for Use of COVID-19 Vaccines Currently Authorized in the United States](#).
- Vaccine disposal: dispose of the vaccine vial (with any remaining vaccine) and packaging as medical waste according to your local and state regulations. Contact your jurisdiction’s immunization program (<https://www.cdc.gov/vaccines/imz-managers/awardee-imz-websites.html>) for guidance. **Do NOT return vaccine in the thermal shipping container.**
- Check your vaccine stock using the [CDC’s Vaccine Lot Number and Expiration Date webpage](#).
 - Request access to a new COVID-19 Vaccine Lot Number report via CDC’s Vaccine Code Set Management Service (VCSMS). This report includes COVID-19 vaccine lot numbers and expiration dates provided to CDC by the vaccine manufacturers. This report is updated daily and can be used to support vaccine administration, inventory management, and jurisdiction IISs. Complete the registration form on [CDC’s Vaccine Lot Number and Expiration Date webpage](#) to request access to the report.
 - Review the list of lot numbers below that are set to expire between May 22, 2021 and June 30, 2021.

Report expired vaccine

Please promptly report any expired vaccine. This helps CDC accurately monitor the amount of vaccine in the field. Keep in mind that there are no negative consequences for reporting waste, and it will not negatively impact future allocations. CDC recognizes that unused expired vaccine is a normal part of any vaccination program, especially one of this scope and size.

COVID-19 Vaccine Labels

<p>Pfizer</p> <p>The expiration date is written on the vial.</p>	 A photograph of three glass vials of Pfizer COVID-19 vaccine. The vial in the foreground has a black label with white text. A red circle highlights the expiration date '06/2021' on the label.
<p>Moderna</p> <p>A QR code on the vial is scanned and a website provides the expiration date.</p>	 A photograph of a single glass vial of Moderna COVID-19 vaccine. The vial has a white label with a QR code. A red circle highlights the QR code on the label.
<p>J&J/Janssen</p> <p>Scan the QR code located on the outer carton, or call 1-800-565-4008, or go to www.vaxcheck.inj</p>	 A photograph of a single glass vial of J&J/Janssen COVID-19 vaccine. The vial has a white label with a QR code. A red circle highlights the QR code on the label.

CDC also recommends jurisdictions that allow empty vaccine vials and cartons in regular trash to mark through vials and tear up cartons to prevent fraudulent usage.

Lastly, a reminder that the ODH Provider Call Center hours have changed. The ODH Provider Call Center is open daily from 8:00 a.m. – 7:00 p.m. Monday through Friday and is no longer open on weekends. Please contact the ODH Provider Call Center at 1-844-9ODHVAX (1-844-963-4829) or email COVIDVACCINE@odh.ohio.gov. You also may visit the ODH [COVID-19 Vaccine Provider Information Training page](#) for additional information and resources.

The information in this email is included in the attached PDF file in case the links contained in this email do not work for you.

Sincerely,

Ohio Department of Health COVID-19 Vaccination Provider Relations Team
