

## Staff Learn Disorder-specific Care Through Online Training

Differentiate serious mental illness from  
Alzheimer's and dementia

The CARES<sup>®</sup> Serious Mental Illness<sup>™</sup> Online Training Program takes a deep dive into serious mental illnesses such as major depression, schizophrenia, bipolar disorder, and schizoaffective disorder. It explores how serious mental illness differs from Alzheimer's and Dementia. Finally, it is exceptional training for all long-term care staff as it provides helpful strategies for people living with a serious mental illness.

This program has 4 modules (4 hours). The modules include:

1. Introduction to Serious Mental Illness
2. Understanding Serious Mental Illness
3. Living with Serious Mental Illness
4. The CARES<sup>®</sup> Approach and Providing Appropriate Care
