

# Next Generation MyCare Program Care Coordination

**Care Coordination** is a team-based, person-centered approach designed to include a full variety of care coordination activities, ranging from short-term assistance to meet care gaps to longer-term, intensive care management for members with complex needs.

## Care Coordination Assists Members Through

Helping create and manage a care team made up of professional and informal supports based on member preference and establishing specific responsibilities.

Providing care continuity while honoring member experience and choice.

Identifying and addressing physical, behavioral, and other needs.

Focusing on person centered goals to help solve member social and enviromental concerns in addition to medical concerns.

Coordination of Medicare and Medicaid benefits for an easier medical experience.

Providing hands on assistance for every member.

## What Does This Mean for Members?

The Next Generation MyCare program makes sure that every member has access to a care coordinator to help members figure out what services will be covered by Medicaid or Medicare.

Members enrolled on the MyCare waiver program will also have a dedicated waiver service coordinator to help them navigate their waiver services.

## Dedicated Care Coordination

Members not enrolled in the MyCare Ohio program for both their Medicaid and Medicare benefits may see less coordination of their benefits, including multiple communications, ID cards, points of contact for services, and more.

One high quality Next Generation MyCare plan provides both Medicaid and Medicare coverage, so there is stronger coordination of benefits and support. The member has one care coordinator for both benefits. If enrolled in a waiver program, they also have waiver service coordination.

If you need to replace your ID card, call your plan's member services department, or sign up with your plan in their member services portal. You can print a copy of your ID card at any time from your plan portal. If you order a card by telephone, it should arrive in the mail in 7-10 business days from the date of your request.

## What other materials will I get from my Next Generation MyCare plan?

Once you are enrolled in a Next Generation MyCare plan, you will get the following in the mail:

- A welcome letter
- Member ID card

Your plan may also send you:

- Member handbook
- Information about your doctors and health services
- Newsletters
- Healthcare reminders
- Opportunities to earn wellness incentives
- Provider and pharmacy directory
- Summary of benefits if you are a new MyCare Ohio member or a summary of year-to-year changes in your plan benefits if you are a current MyCare Ohio member

## Your Healthcare Benefits

### How is the Next Generation MyCare program improving my care?

Just like the current program, MyCare Ohio will coordinate to provide additional help with all your Medicaid and Medicare benefits, through one care team focused on you and your care needs. For members enrolled in MyCare Ohio for both Medicare and Medicaid, it will cover your entire healthcare benefit, including all behavioral health services and long-term care services for those in the community, assisted living, and in a nursing facility. ODM has also improved the MyCare Ohio program to give you the best care possible. These changes include:

- Better transportation options to get you to and from your appointments
- More in-home providers available to you
- Shorter wait time for prior authorizations

## Who is on my care team?

Everyone in the current and Next Generation MyCare program has access to a care team. This includes a care coordinator and others to support the needs you may have such as social workers, mental health and/or substance use disorder licensed independent professionals, gerontologists, housing specialists, transportation specialists, and community health workers.

Your care team may be different depending on the options below:

- If you have one plan for both your Medicaid and Medicare benefits, you will have one care coordinator. Your care coordinator will help you with all your care needs.
- If you have one plan for both your Medicaid and Medicare benefits and you are on a waiver, you will have a care coordinator and a waiver service coordinator. They will work together to help you with your needs.
- If your plan only covers your Medicaid benefits you may have separate teams who will help you with your Medicaid and Medicare benefits. These two teams may not work together, and you may have to be more involved in your care.

## Who is my care coordinator?

The MyCare Ohio plans partner with Area Agencies on Aging (AAA) to serve members. Your care coordinator may be from your plan and/or your local AAA. If you want changes to your care coordinator, call your plan.

AAAs are regional agencies that work with your plan to support your care.

## I have complex health needs. What support is available to me?

Contact your care coordinator. They can help you get the care you need and can work with your plan to find programs to help you. For example, your plan may offer you a monthly allowance to cover costs related to your health conditions. If you don't know who your care coordinator is, you can call the care management number on your member ID card for help.

## How do I get transportation to my appointments and other services?

Your plan can give you several free trips per year to help you get to your appointments and other services such as primary care, behavioral health, chemotherapy, grocery store, haircut, and more. Contact your MyCare Ohio plan or your [local County Department of Job and Family Services](#) to get help with transportation.

Contact your plan if:

- You use a non-folding wheelchair or power scooter that doesn't fit easily in a standard vehicle.
- You need to sit in your folding wheelchair during transport.
- You need to travel 30 miles or more (one way) because the treatment you need is not available at a closer location.

For more information, review the [Transportation Assistance document](#).

## **Will my pharmacy benefits change in the Next Generation MyCare program?**

If you have a Next Generation MyCare plan for both your Medicaid and Medicare benefits:

- Your plan will cover your over-the-counter and prescription medicine. Due to a Medicare federal policy change, you may see costs for prescriptions you did not in the past. This change was not made by ODM or the Next Generation MyCare plans.

If your Next Generation MyCare plan only covers your Medicaid benefits:

- Your Medicaid plan will cover your over-the-counter drugs, and your prescription drugs will be covered through your Part D plan. Due to a Medicare federal policy change, you may see costs for prescriptions you did not in the past. This change was not made by ODM or the Next Generation MyCare plans.

## **MyCare Ohio Waiver**

### **I am currently in an Ohio Home Care, Ohio Assisted Living, or PASSPORT waiver program. What should I expect?**

If you are currently in an Ohio Home Care, Ohio Assisted Living, or PASSPORT waiver program you will get a letter telling you that you are being enrolled in the MyCare Ohio waiver when the Next Generation MyCare program is available. You will have the same benefits, or more, available to you. If you want to keep your services, no action is needed. If you want a different plan, you can switch during open enrollment. You will not lose coverage due to this change.

### **What are the benefits of the MyCare Ohio waiver and how can I enroll?**

Waiver services help you stay in your home or community.

To enroll in the MyCare Ohio waiver, contact your care coordinator. They can make sure you are eligible and help you find the right services for you.

To learn more about the MyCare Ohio waiver, review our [MyCare Ohio Waiver document](#).
