

## **OHIO HEALTH CARE ASSOCIATION**

### **Antitrust Compliance Policy**

It is policy of the Ohio Health Care Association (OHCA) to comply fully with all applicable antitrust laws, state and federal.

OHCA and its member facilities, associates, and representatives shall not engage in activities or discussions which might be construed as an attempt to:

- (a) Raise, lower, or stabilize prices;
- (b) Regulate the amount of services available;
- (c) Allocate markets;
- (d) Encourage boycotts;
- (e) Foster unfair trade practices;
- (f) Assist in monopolization; or
- (g) Violate in any way federal or applicable state antitrust laws.

### **Conflict of Interest and Confidentiality Policy**

OHCA is dedicated to serving our members by providing a variety of services that assist members in achieving their missions. The integrity of OHCA, and the activities we undertake, depends on avoidance of conflicts of interest, or even appearance of such conflicts, by individuals involved in those activities.

Each volunteer should have reviewed the agenda for today's meeting. If a potential or actual conflict is noted on the agenda that was not disclosed earlier, the volunteer should immediately disclose the potential or actual conflict to the meeting chair.

Further, any member with a conflict agrees to recuse themselves from discussion or voting on any topics for which a conflict exists because it may interfere with the volunteer's ability to provide unbiased loyalty to OHCA.

Volunteers agree to exercise care not to disclose confidential information acquired in connection with their role and will not disclose information that might be adverse to OHCA's interests.

Furthermore, volunteers will not disclose or use information relating to OHCA's business for personal profit or advantage.
